Somya Upadhyay

Email: usomya23@gmail.com | GitHub: github.com | LeetCode: LeetCode | Phone: +91-9358164038

Education

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech CSE	Birla Institute of Technology, Mesra	BIT Mesra	8.74 CGPA	2023–2027
Senior Secondary	St Anselm's Pink City School	CBSE	90.8%	2023
Matriculation	St Anselm's Pink City School	CBSE	93%	2021

Skills

Languages: Python, C, Java, SQL and Flutter/Dart
Core Concepts: Data Structures, Algorithms and Object-Oriented Programming (OOP)
Tools & Platforms: GitHub, Firebase, Google Cloud Platform (GCP), APIs, n8n, FastAPI,Twilio, Kafka and TensorFlow
Soft Skills: Leadership, Team Collaboration, Strategic Communication and Product Storytelling

Experience

Daanik Eduventures Pvt. Ltd. May 2026 – July 2026
Software Developer Intern
React · TypeScript · FastAPI · PostgreSQL · ML

- Spearheaded the end-to-end product lifecycle for **BHAO** (a 2D gamified financial literacy platform targeting the 15 to 35 age demographic) from conceptual ideation and technical documentation to full-scale development.
- Engineered the core gameplay architecture by combining machine learning models with rules-based logic to drive 30+ dynamic financial scenarios and evaluate interactions across a system of 200+ unique cards.
- Conducted extensive research on financial behaviors and risk-reward frameworks to build realistic simulation environments and strategy-driven gameplay.

Projects

GraphSentinel (AI-Powered Fraud Detection) (GitHub) July 2026
ML & Graph Analytics
PyTorch Geometric · Neo4j · Kafka · Flink · Docker · Kubernetes

- Developed a real-time banking fraud detection system using **Temporal GNNs** (EvolveGCN) and LSTM Autoencoders to detect multi-hop money laundering patterns natively at scale.
- Secured **0.89 F1-score** for fraud classification and a **94% reduction in FP** comapared to standard threshold-based AML rules and currently extending the system with **federated learning**

PharmaDrishti (Pharmaceutical Supply Chain Intelligence) (GitHub) Feb 2026
Python 3.11 · XGBoost · Scikit-learn · NetworkX · SHAP · Knowledge Graphs

- Deployed a hybrid ML pipeline combining 18 tabular supply-chain characteristics with 22 knowledge-graph features to model pharmaceutical drug distribution inefficiencies and pricing anomalies across regional markets.
- Built an XGBoost model that achieved $R^2 = 0.8916$, **MAE = 0.0320** and **RMSE = 0.0400** in order to beat the baseline performance ($R^2 = 0.8502$) and KG-only ($R^2 = 0.1529$) baselines.
- Incorporated SHAP explainability to identify key drivers of demand clustering and securing the position of Finalist in **SAP MBA HACKFEST**.

Achievements

ICBAI 2026 Research Paper Accepted for Presentation Sep 2026
Paper titled **"The Idiographic Shift in Computational Psychiatry"** selected for presentation at the **(ICBAI 2026), IIM Bangalore**.

Zonal Finalist (Women Who Master: Aspire For Her x Logitech) August 2026
Top 3.1% advanced to zonal round of premier women-in-tech leadership program.

Top 40 Finalist (iDEA Hackathon 2.0: Union Bank PSBs Series) June 2026
Top 40 out of 1600+ teams for *GraphSentinel* (a real-time AML platform using Temporal GNNs and federated learning).

Prize Winner (AI FOR BHARAT BY PAN-IIT) May 2026
Won **1,00,000** as theme winner for *SaanchaarSetu*, middleware linking Karnataka's SWS to 40+ departments.

Competitive Programmer (LeetCode) Ongoing
Achieved a contest rating of **1622** and solved **370+** DSA problems.

Research Paper Accepted (IDBA 2026: Springer) April 2026
"Explainable Drug Adoption Forecasting using Knowledge Graphs" accepted at ACM Indore Chapter's flagship conference (Springer LAIS series).

Community & Leadership

- **Training & Placement Coordinator (2026):** Spearheading corporate outreach and industry partnerships to maximize technical placements and connect students with top tech firms.
- **Sponsorship Lead & Head Coordinator (Battle of Bytes):** Directed end-to-end operations and secured key sponsorships for the university's premier coding competition by managing cross-functional teams.
